## Young Adult Personal Finance

Guided tours with young adults (ages 18-25) exploring their use and management of personal financial records during Emerging Adulthood. Applies the Wisdom Hierarchy to analyze concepts of PI in personal finance.

## Family Communication During Hospice

In-depth interviews with family and friends of the hospice patients examining their use of information technologies and tools to provide support, comfort, and intergenerational social interaction near the end-of-life.

## Paper-Based Email for Older Adults

Participatory design sessions with older adults in an assisted-living residential facility exploring the feasibility of digital pens as a low-cost, high-accessibility solution for intergenerational email communication.
